

AWARENESS SERIES: Systems and regeneration

27 August
at 10 CET

Seeing things differently –
Systems and regenerative thinking

11 September
at 10 CET

Discovering regenerative
approaches in projects

24 September
at 11 CET

Regen Nexus – Imagining
regenerative infrastructure

RAMBOLL

AWARENESS SERIES 2025: Systems and regeneration

WEBINAR 1:

Seeing things differently – Systems and Regenerative thinking

Hosted by:

Elina Kalliala,
Global Sustainability Director,
Ramboll Transport

Katri Einola,
Lead of Regenerative Approaches,
Ramboll Transport

Hossein Rezai-Jorabi,
Global Design Director,
Ramboll Buildings

Michaela Ramm-Schmidt,
Regenerative entrepreneur,
WhyCo

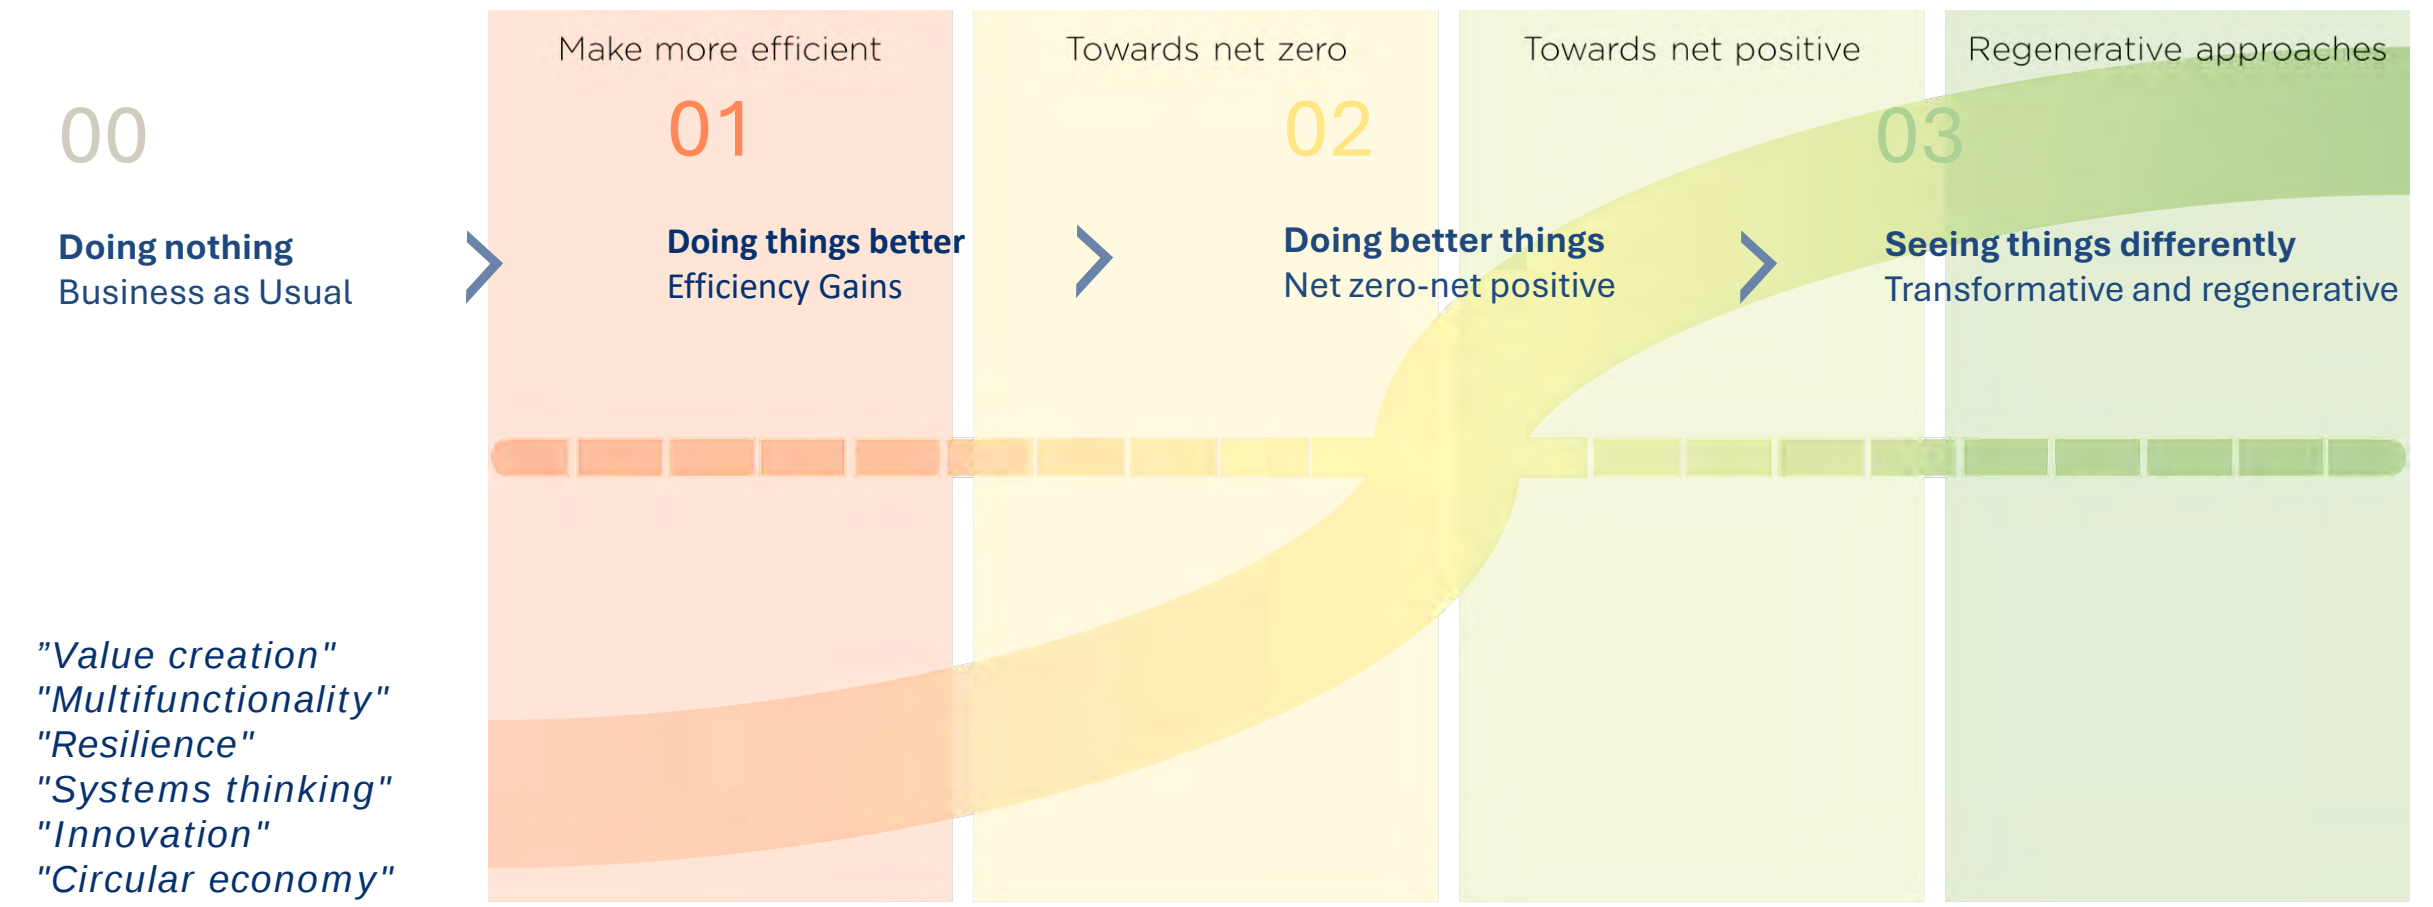

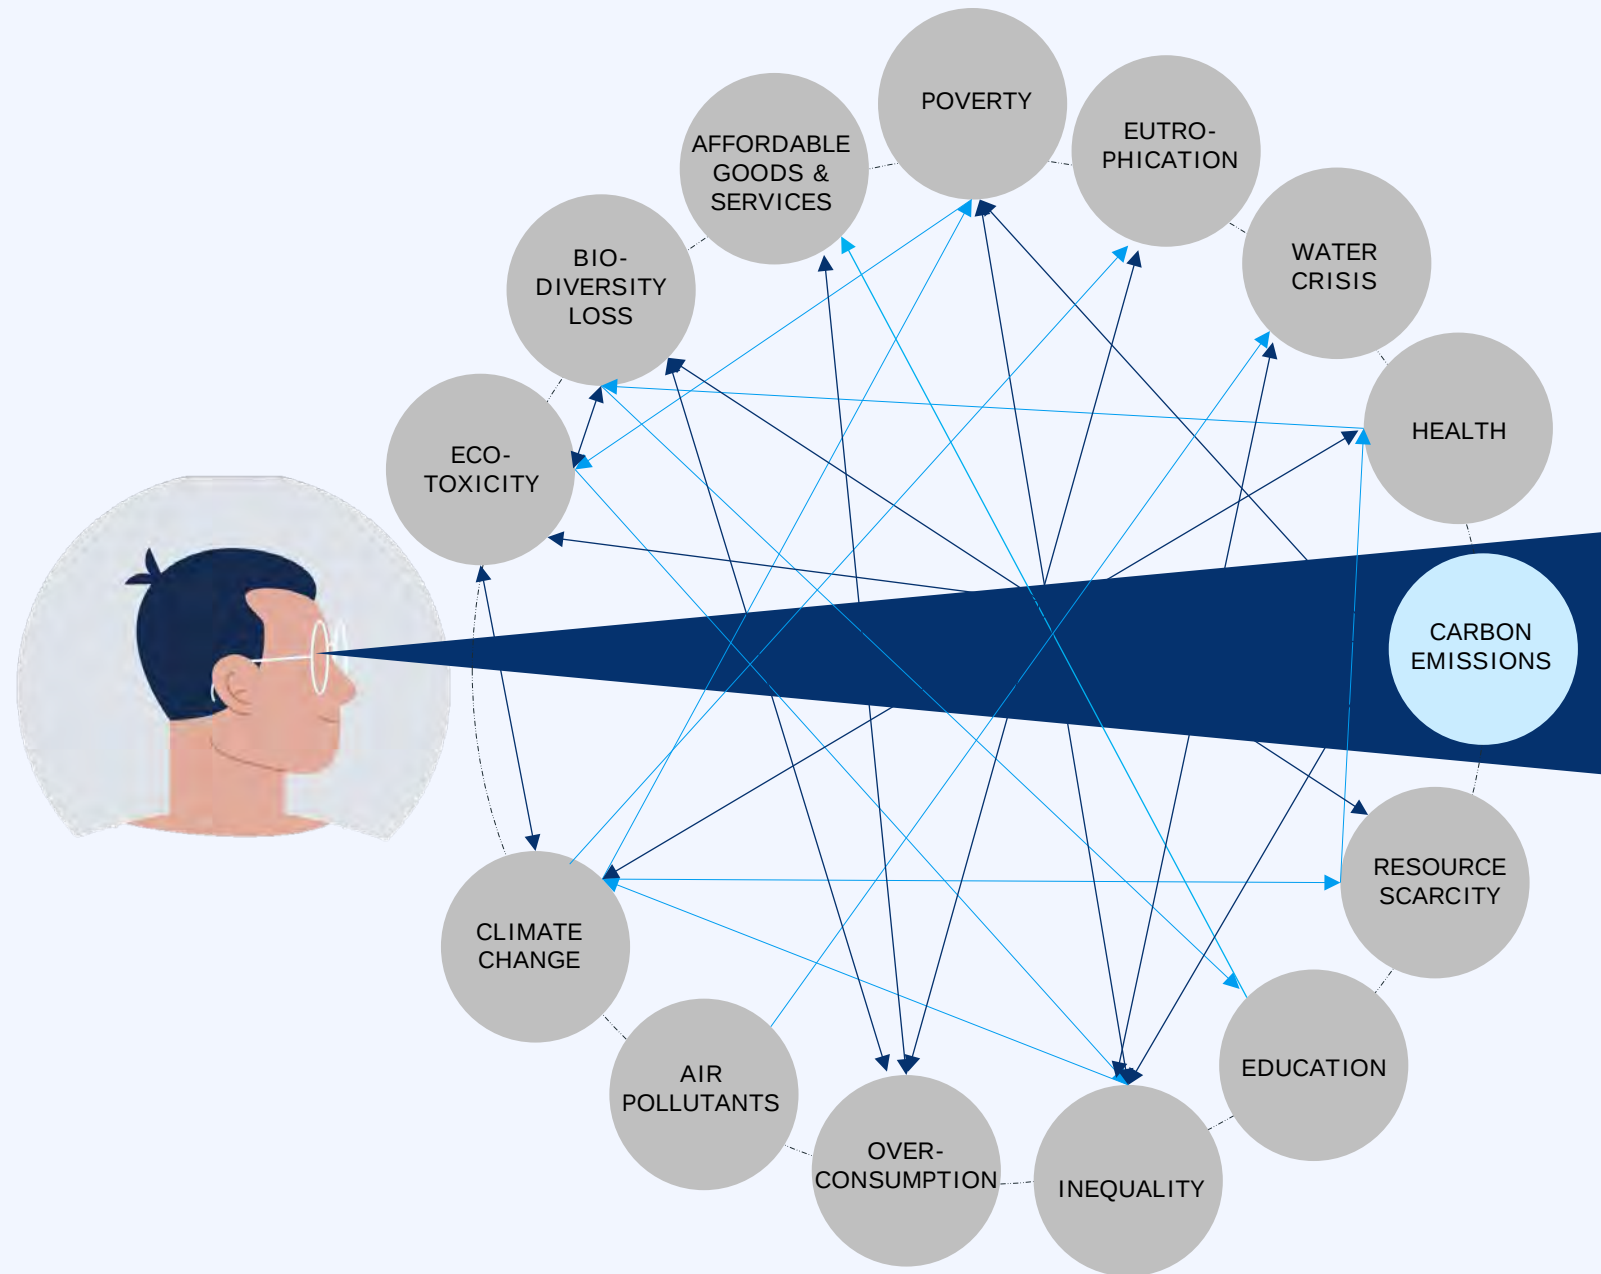

Stanislava Boskovic,
Architect and researcher,
LRL Space &
Imperial College London

RAMBOLL

Bright ideas.
Sustainable change.

Regeneration is a process – Driven with curious mindset

Sustainability
transition

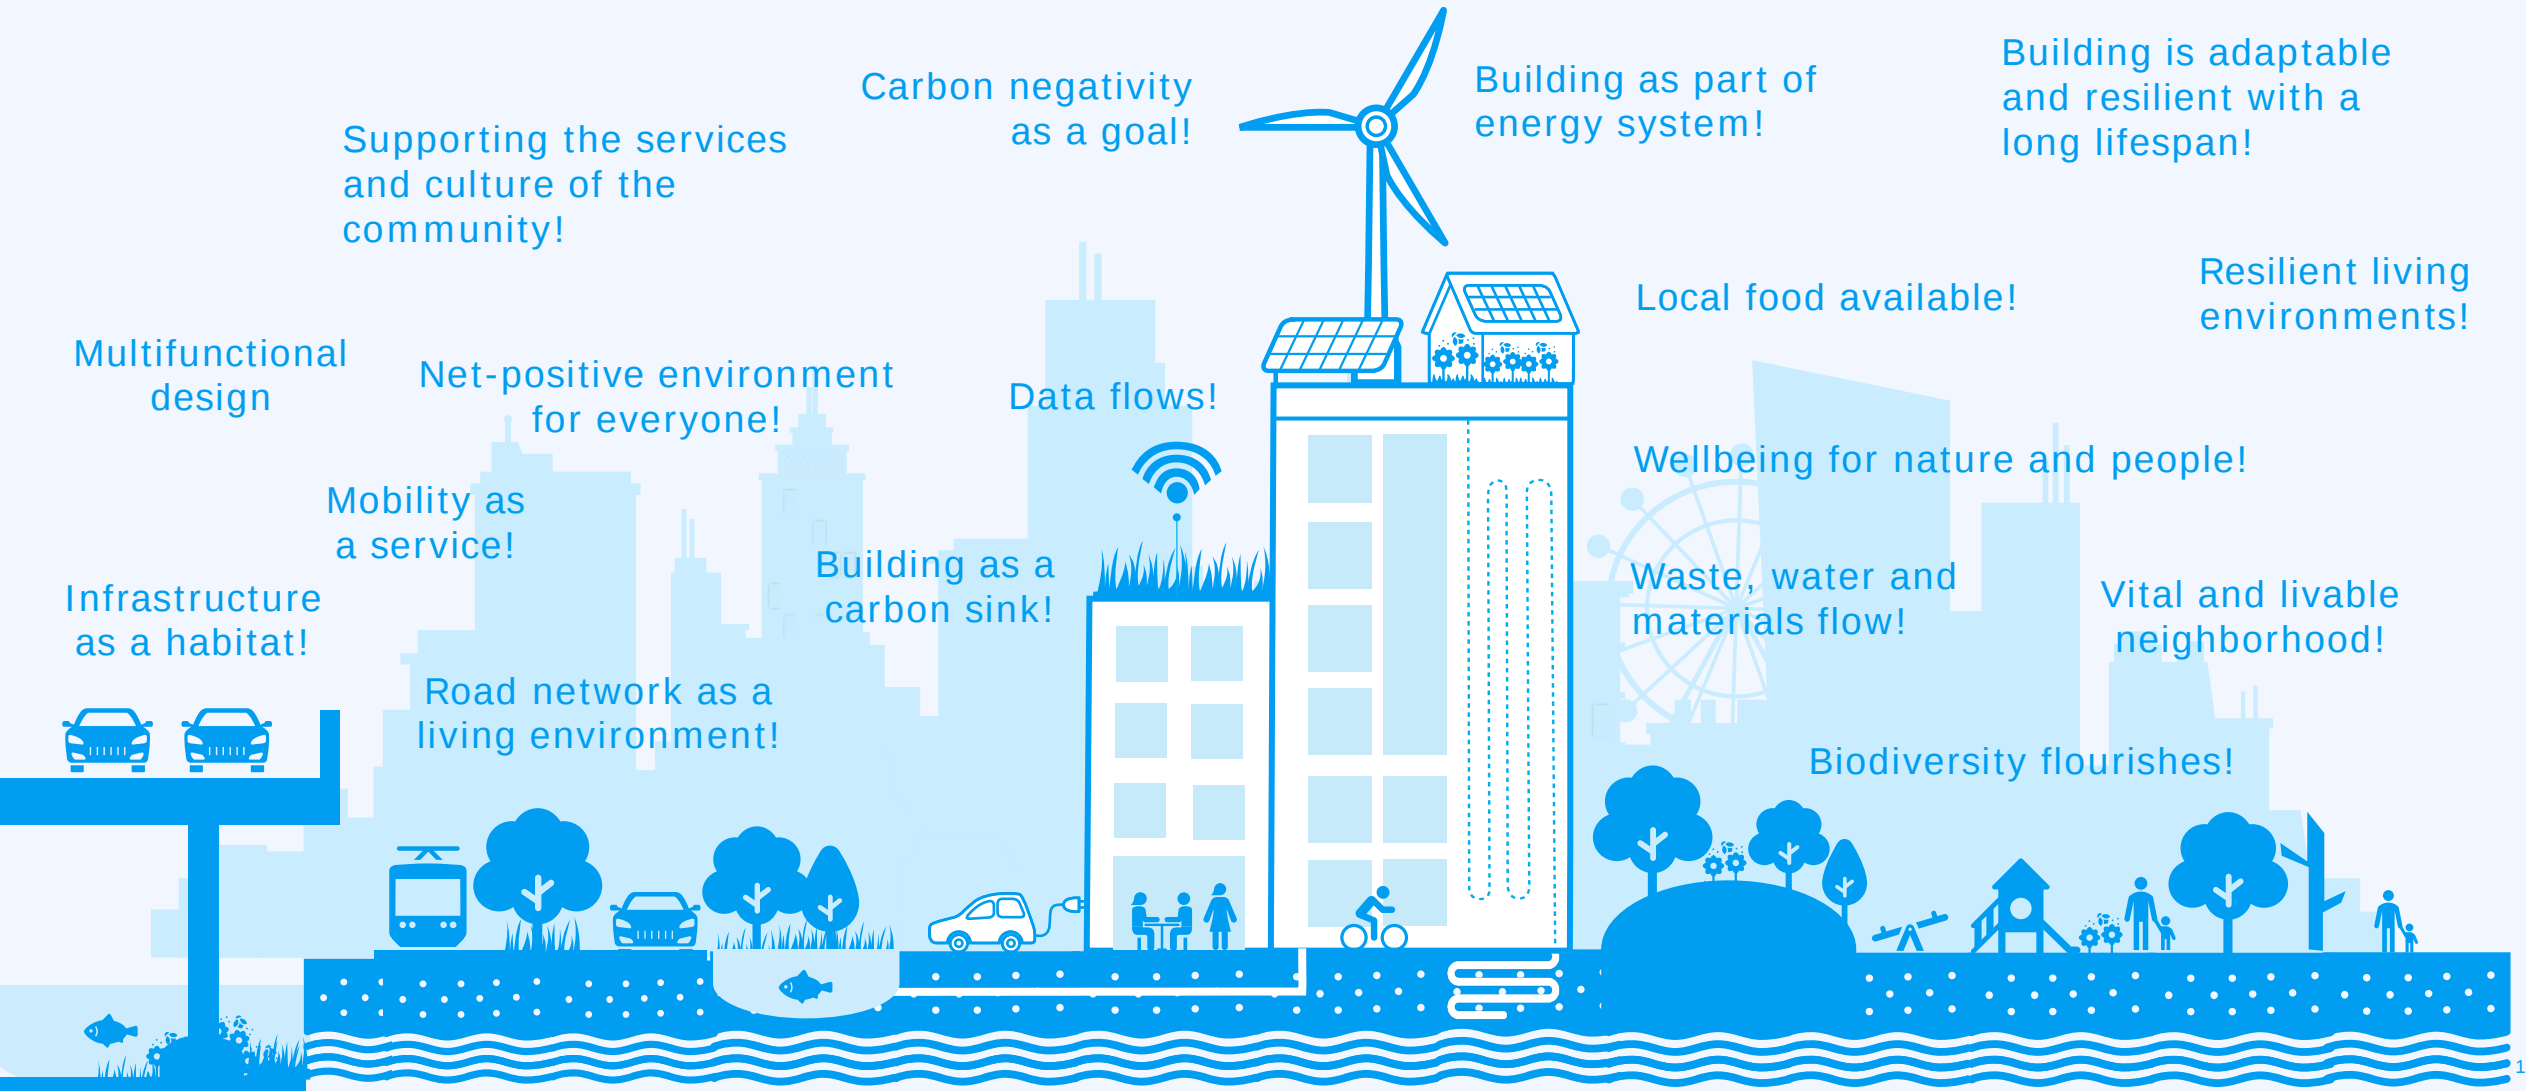

From ego-centricity...

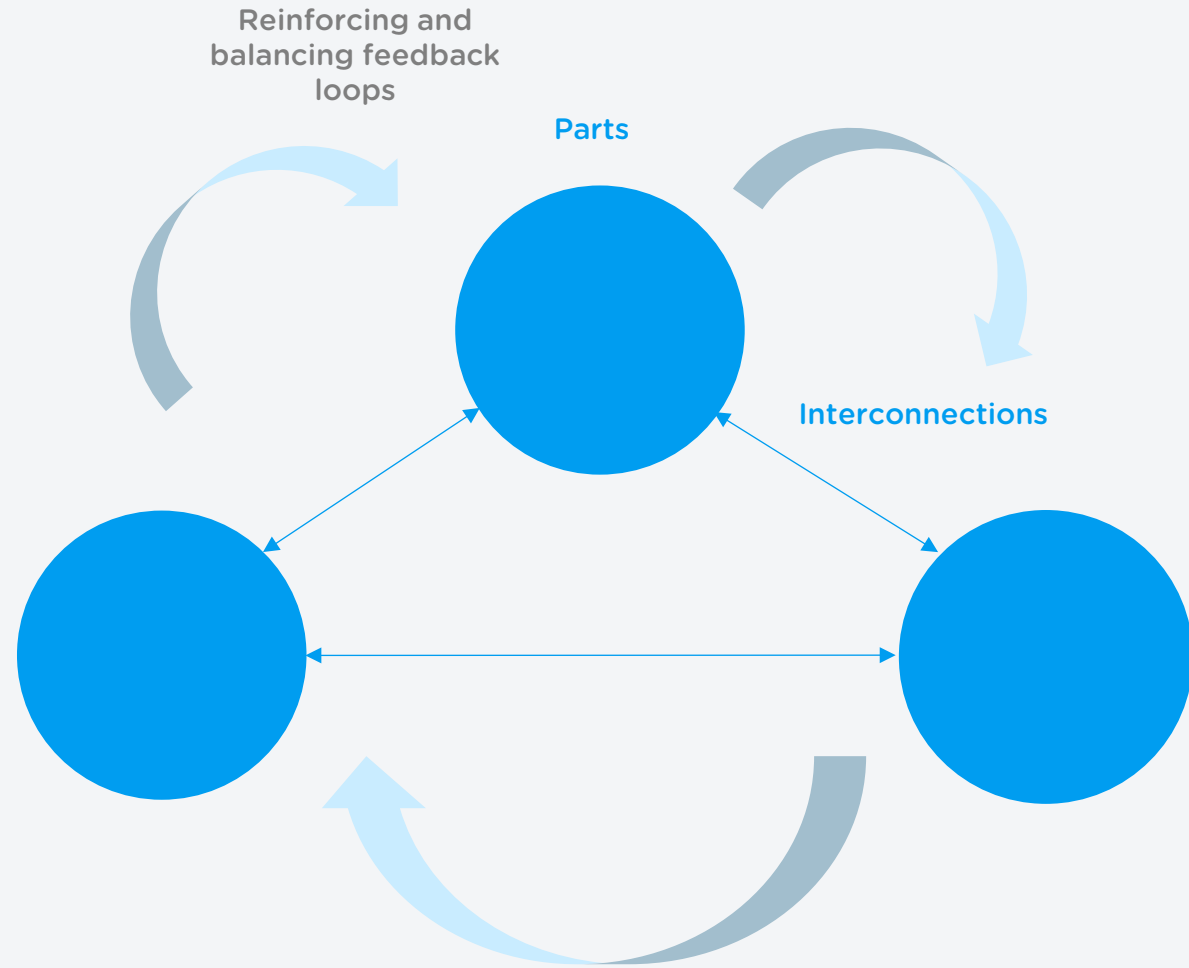

...to life-centricity
(and re-learning that
we are nature)

Imagine a city as a living system

Systems thinking is the key to regeneration

The most resilient systems are the living systems: they are complex and adaptative

Systems thinking is the key to regeneration

The most resilient systems are the living systems: they are complex and adaptative

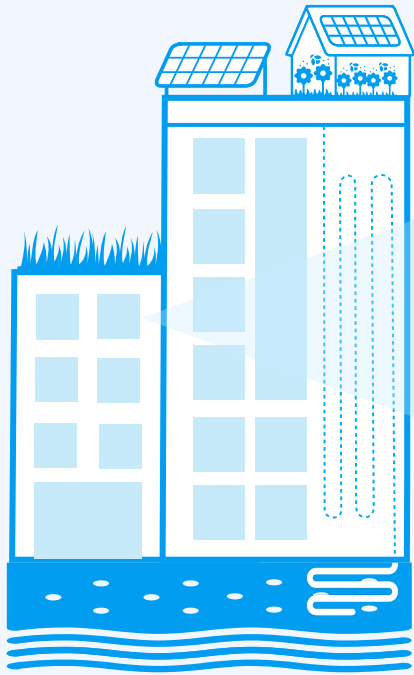

Living systems

Social systems

Technical systems

Systems within systems – Creating nestedness value

Building as a system

Neighborhood as a system

City as a system

Co-learning the language of life

Are you recognizing all the potential in different levels of systems (personal level, project level, organisational level, societal level?) How can you create the value in these levels?

What kind of networks need to be established to make it happen in different levels?

What new skills are needed in achieving these potentials?

With whom and what kind of collaboration should be strengthened?

ROUND TABLE PANEL DISCUSSION

Seeing things differently – Why do we need this?

Hosted by:

Elina Kalliala,
Global Sustainability Director,
Ramboll Transport

Katri Einola,
Lead of Regenerative Approaches,
Ramboll Transport

Hossein Rezai-Jorabi,
Global Design Director,
Ramboll Buildings

Michaela Ramm-Schmidt,
Regenerative entrepreneur,
WhyCo

Imperial College London

AWARENESS SERIES 2025: Systems and regeneration

WEBINAR 2: Thu, Sep 11 at 10 CET

Discovering Regenerative approaches in Projects

Discover how to not only sustain but actively regenerate and bring positive impacts to our environment, communities, and economies through built environment projects such as Development Plan 2040 for City of Oulu, Finland, TSK70 Highway for Multifunctionality, Sweden, and Designing as Water, Denmark.

Hosted by:

Case presenters and panelists:

Elina Kalliala,
Global Sustainability
Director,
Ramboll Transport

Inna Ampuja,
Lead of Systems
Change,
Ramboll Finland

Julia Thörne,
Landscape
Architect,
Ramboll Sweden

Trine Stausgaard Munk,
Global Sustainability
Director,
Ramboll Water

Mika Uolamo,
City Planning
Architect,
City of Oulu

Kirsten Syvertsen,
Head of Clients and
Sales,
Ramboll Norway

Johanne Bro Lindblad,
Regenerative leadership
MSc in Anthropology,
University of
Copenhagen
